Heritage

Wool Classics is a boutique family business owned and run by the Brinton family who have been weaving carpet continuously since 1783. Our heritage lies in the finest quality by selecting the purest raw materials honouring our legacy of supplying some of the finest interiors in the world. Today all aspects of the process use organic materials without the use of nasty chemicals ensuring a fully biodegradable product.

Origins

Whilst wool flows through our veins, we are not averse to considering other fibres that are equally organic, which is why we feel that Tencel fits within our sustainable criteria. Tencel is derived from sustainable beech wood which has earned it the United States Department of Agriculture (USDA) BioPreferred designation. It is also fully biodegradable and compostable so it fits within the Wool Classics rules as an acceptable fibre.
